Here are four fresh reasons to choose Bermuda now:

Location, Location, Location

A 21-square mile island set apart in the Atlantic Ocean—traveling to Bermuda is a breeze. With daily 90 minute, non-stop flights from NYC, 3-hour flights from most US East Coast gateways and under 7 hours from London.

Original

While Bermuda's style is elegant and elevated, the island's people provide the perfect welcoming charm. It's an island filled with warmth, tranquility and natural beauty. Our creative spirit shines through our rich culture and original attitude. Guests will encounter island life that comfortably mixes tradition and innovation, guaranteeing lasting memories.

U.S. Tax Deductible Meetings and Customs

Meetings in Bermuda are U.S. tax deductible and food and beverage expenditures are not taxed. Attendee gifts can be imported into Bermuda duty free if they are re-exported at the end of the meeting. Also, on your return trip, customs are cleared in Bermuda;

which allows fast access to baggage claim. Global Entry kiosks are also located in the terminal to expedite clearance for pre-approved travellers.

Innovation with Tradition

Bermuda's travel industry is evolving with an alluring number of developments while staying true to the essence of the island. With grande dame hotels sporting multimillion-dollar renovations, new hotel projects in the works, and a new state-of-the-art international airport being constructed. Along with tourism experiences, guests are guaranteed to embrace traditional Bermudian elements alongside modern innovation.

The Zika Virus

The Zika virus continues to receive a tremendous amount of attention. There is no known local transmission in Bermuda because the most capable mosquito species to transmit the virus, the Aedes aegypti, is not found on the Island. Bermuda has one of the most comprehensive mosquito control programmes in the world. The Bermuda Tourism Authority continues to monitor the situation with appropriate local and international health authorities.

Incentive Itinerary

In addition to our 21-square miles, Bermuda offers 75 miles of dramatic coastline, the perfect backdrop for productivity. Whether it is work or play, out here we do both exceedingly well.
